

Monthly Summary Report

Institution: MCS
MCSP

Memorandum

Date: 7/18/2024

To: Statewide Heat Plan Coordinator

Subject: Heat Plan Activity - June, 2024

The following is a summary of the heat related activity for the month of June, 2024 at Mule Creek State Prison (Institution)

1. Were outside temperatures 90 degrees or above (Stage I Alerts)?

Number of days Stage I Alert initiated: 25

Yes

2. Were cooling and/or hydration measures instituted in housing units reaching 90 degrees or more (Stage II Alert)?

Number of days Stage II Alert initiated: 0

0

3. Were medical rounds performed in housing units reaching 95 degrees or more (Stage III Alert)?

Number of days Stage III Alert initiated: 0

0

4. Weekly list of heat risk patients archived?

Yes

5. Number of patients with heat related illness. N/A List these patients on the Heat Incident Log and include the patient's name, CDCR #, list of heat risk medications, Mental Health Services Delivery System designation, description of the symptoms diagnosis at the time of the heat related illness, a brief summary of the medical treatment rendered, where the incident occurred, and the ultimate disposition of the patient. The Heat Incident log shall be submitted each month with the Monthly Summary Report if heat related illnesses have occurred.

Weekly list of Heat-Risk Patients is generated automatically. A hard copy is distributed to the Facility Lieutenants, Classifications and Parole Representative, Food Manager, Outpatient Housing Unit and Mental Health Department. An e-mail copy is distributed to the Litigation Coordinator, Associate Warden, Facility Captains, Prison Industry Authority, Education Staff and Medical Staff.

Inside and Outside Temperature Logs, Medical Rounds Logs, Heat Incident Logs and Weekly lists of Heat-Risk Patients have been collected and are on file and easily accessible in the office of the institution's Heat Plan Coordinator.

Immediately notify the Watch Commander at extension 5523 when the inside air temperature reaches 90 degrees and again at 95 degrees.

(e.g. 1st tier, 2nd tier, etc.)

Institution: MCSF Housing Unit: C13 Temp. Reading Location:

Using an accurate thermometer in the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Note: Air-conditioned housing units will also be monitored when the heat risk list may be housed. Ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE

Immediately notify the Watch Commander at extension 5523 when the inside air temperature reaches 90 degrees and again at 95 degrees.

(e.g., 1st tier, 2nd tier, etc.)

Institution: MCSF Housing Unit: C14 Temp. Reading Location:

Using an accurate thermometer in the highest housing units will also be monitored every three (3) hours, seven (7) days a week. The inside air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed.

Note: Air-conditioned housing units will also be monitored when the heat risk list may be housed. From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed.

immediately hotly the Watch Command at extension 5523 when the inside air temperature reaches 90 degrees and again at 95 degrees.

(e.g. 1st tier, 2nd tier, etc.)

Institution: MCSB Housing Unit: C14

Using a accurate thermometer on the highest location in the house unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to taken every three (3) hours, seven (7) days a week.

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. Note: Air-conditioned housing units will also be monitored when the air-conditioning is malfunctioning.

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. (Note: Air-conditioned housing units will also be monitored when the heat risk list may be housed.) Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Immediately notify the Watch Commander at extension 5522 when the inside air temperature reaches 90 degrees and again at 95 degrees.

(e.g., 1st tier, 2nd tier, 3rd tier, etc.)

Institution: MCIC Housing Unit: 16 Temp. Reading Location: 2ND TIER

90 degrees and again at 95 degrees.

Immediately notify the Watch Commander at extension 5522 when the inside air temperature reaches 90 degrees and again at 95 degrees.

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. (Note: Air-conditioned housing units will also be monitored when the heat risk list may be housed.) Using an accurate thermometer on the highest unit in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week. (e.g., 1st tier, 2nd tier, 3rd tier, etc.)

Institution: MCI Housing Unit: 17 Temp. Reading Location: 2ND TIER

Immediately notify the Watch Commander at extension 5522 when the inside air temperature reaches 90 degrees and again at 95 degrees.

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

(Note: Air-conditioned housing units will also be monitored when the heat risk list may be housed.)

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

immediately notify the Watch Commander at extension 5522 when the inside air temperature reaches 90 degrees and again at 95 degrees.

Temp. Readings Location: 2nd. Tier (e.g. 1st. Tier, 2nd. Tier, 3rd. Tier, etc.)

21

Using Units:

Using an accurate thermometer on the highest part of the house (e.g., top tier) where an inmate sits is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

(Note: Air-conditioned housings units will also be monitored when the heat risk list may be housed.)

Immediately notify the Watch Commander at extension 5533 when the inside air temperature reaches 90 degrees and again at 96 degrees (e.g., 1st tier, 2nd tier, 3rd tier, etc.).

risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. (Note: Air-conditioned housing units will also be monitored when the air conditioner is malfunctioning).

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. (Note: Air-conditioned housing units will also be monitored when the air conditioner is malfunctioning.) Using an accurate thermometer on the highest location in the housing unit (e.g., 1st tier, 2nd tier, 3rd tier, etc.) immediately notify the Watch Commander at extension 5533 when the inside air temperature reaches 90 degrees and again at 95 degrees.

Institution: **MCSF** Housing Unit: **2** Temp. Reading Location: **Inside Tier** When the inside air temperature reaches 90 degrees and again at 95 degrees.

The inside air temperature is to be taken every three (3) hours, seven (7) days a week. The risk list is housed. The inside air temperature is to be monitored every three (3) hours, seven (7) days a week on the heat risk list.

immediately notify the Watch Commander at extension 333 when the inside air temperature reaches 90 degrees and again at 95 degrees.

Immediacy of the Web Components API

Using an accurate thermometer on the highest location in the housing unit (e.g., top floor) where an inmate on the heat risk is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Note: Air-conditioned housing units will also be monitored when the air conditioner is malfunctioning.

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor any log the INSIDE Form 101 at temperatures in all non-habitable housing units where an inmate is housed.

Immediately notify the Watch Commander at extension 5523 when the inside air temperature reaches 90 degrees and again at 95 degrees.

Using an accurate thermometer which will also be maintained when the air conditioner is maintained.

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor any log the INSIDE combined air temperature in all non-air conditioned housing units where an inmate on the heat risk list may be housed.

The seal of the Commonwealth of Massachusetts, featuring a central shield with a Native American figure holding a bow and arrow, surrounded by a circular border with the text "SIGILLUM REIPUBLICÆ MASSACHUSETTENSIS" and "1780".

Institution: **M.C.S.P** Housing Unit: **8** Temp. Reading Location: **2nd floor**

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier, 3rd tier, etc.) immediately notify the Watch Commander at extension **5523** when the inside air temperature reaches 90 degrees and again at 95 degrees.

Note: Air-conditioned housing units will also be monitored when the heat risk list may be housed. Ambient air temperature in all non-air conditioned housing units where an inmate is monitored will also be monitored when the heat risk list may be housed. Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Immediatelly notify the Watch Commander when the inside air temperature reaches 90 degrees and again at 95 degrees.

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Note: All conditioned housing units will also be monitored when the air conditioner is installed.

1. When my child is ill through colds or other illnesses, I will keep him/her home from school until he/she is well enough to attend.

From May 1st through October 31st, the event will be held at the University of California, Berkeley.
