

Monthly Summary Report

Institution MCS

Memorandum

Date 6/3/2024

To: Statewide Heat Plan Coordinator

Subject: Heat Plan Activity - Mule Creek State Prison

The following is a summary of the heat related activity for the month of

at MCS (Institution)

May, 2024

1. Were outside temperatures 90 degrees or above (Stage I Alert)? Yes

Number of days Stage I Alert initiated: 7

2. Were cooling and/or hydration measures instituted in housing units reaching 90 degrees or more (Stage II Alert)? No

Number of days Stage II Alert initiated: 0

3. Were medical rounds performed in housing units reaching 95 degrees or more (Stage III Alert)? No

Number of days Stage III Alert initiated: 0

4. Weekly list of heat risk patients archived? Yes

5. Number of patients with heat related illness: 0. List these patients on the Heat Incident Log and include the patient's name, CDCP #, list of heat risk medications, Mental Health Services Delivery System designation, description of the symptoms, diagnosis at the time of the heat related illness, a brief summary of the medical treatment rendered, where the incident occurred, and the ultimate disposition of the patient. The Heat Incident Log shall be submitted each month with the Monthly Summary Report if heat related illnesses have occurred.

Weekly list of Heat-Risk Patients is generated automatically. A hard copy is distributed to the Facility Lieutenant, Classifications and Parole Representative, Food Manager, Outpatient Housing Unit and Mental Health Department. An e-mail copy is distributed to the Lieutenant Coordinator, Associate Warden, Facility Captains, Prison Industry Authority, Education Staff and Medical Staff.

Inside and Outside Temperature Logs, Medical Rounds Logs, Heat Incident Logs and Weekly lists of Heat-Risk Patients have been collected and are on file and easily accessible in the office of the institution's Heat Plan Coordinator.

OUTSIDE TEMPERATURE RECORD
CDCR 2030 (04/18)

DEPARTMENT OF CORRECTIONS AND REHABILITATION

INSTITUTION: MCSF

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the OUTSIDE ambient air temperature.

Using an accurate thermometer located in a central, heat neutral location, the outside air temperature is to be taken every hour, seven (7) days a week.

Thermometer Location: Main Control

Immediately notify the Watch Commander at extension 5523 when the air temperature reaches 90 degrees.

Mule Creek State Prison
Facility A

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. (Note: Air-conditioned housing units will also be monitored when the air conditioner is malfunctioning).

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Institution: MCS Housing Unit: 1 Temp. Reading Location: 2nd tier
(e.g., 1st tier, 2nd tier, 3rd tier, etc.)

Immediately notify the Watch Commander at extension 5523 when the inside air temperature reaches 90 degrees and again at 95 degrees.

STATE OF CALIFORNIA
INSIDE TEMPERATURE RECORD
CDCR 2031 (04/18)

DEPARTMENT OF CORRECTIONS AND REHABILITATION

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. (Note: Air-conditioned housing units will also be monitored when the air conditioner is malfunctioning).

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Institution: MCSRP Housing Unit: 2 Temp. Reading Location: 2nd tier
(e.g., 1st tier, 2nd tier, 3rd tier, etc.)

Immediately notify the Watch Commander at extension 5523 when the inside air temperature reaches 90 degrees and again at 95 degrees.

STATE OF CALIFORNIA
INSIDE TEMPERATURE RECORD
CDCR 2031 (04/18)

DEPARTMENT OF CORRECTIONS AND REHABILITATION

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. (Note: Air-conditioned housing units will also be monitored when the air conditioner is malfunctioning).

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Institution: MCSO Housing Unit: 4 Temp. Reading Location: 2nd tier
(e.g., 1st tier, 2nd tier, 3rd tier, etc.)

Immediately notify the Watch Commander at extension 5523 when the inside air temperature reaches 90 degrees and again at 95 degrees.

Notes

Mule Creek State Prison
Facility A

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. (Note: Air-conditioned housing units will also be monitored when the air conditioner is malfunctioning).

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Institution: MCSO Housing Unit: 5 Temp. Reading Location: 2nd tier
(e.g., 1st tier, 2nd tier, 3rd tier, etc.)

Immediately notify the Watch Commander at extension 5523 when the inside air temperature reaches 90 degrees and again at 95 degrees.

INSIDE TEMPERATURE RECORD			
STATE OF CALIFORNIA			
DEPARTMENT OF CORRECTIONS AND REHABILITATION			
Date	time	Temp.	Name (Print)
MONDAY	5/27/24	0300	69
TUESDAY	5/28/24	0300	65
WEDNESDAY	5/29/24	0300	70
THURSDAY	5/30/24	0300	E-L1A
FRIDAY	5/31/24	0300	SATURDAY
SUNDAY	6/1/24	0300	NOTES

Handwritten notes from the log:

- MONDAY: 69 (circled), 65 (circled), 70 (circled), E-L1A (circled)
- TUESDAY: 65 (circled), 69 (circled), 70 (circled), E-L1A (circled)
- WEDNESDAY: 69 (circled), 70 (circled), 70 (circled), E-L1A (circled)
- THURSDAY: 70 (circled), 69 (circled), 69 (circled), E-L1A (circled)
- FRIDAY: 70 (circled), 70 (circled), 70 (circled), SATURDAY (circled)
- SUNDAY: 71 (circled), 71 (circled), 71 (circled), 71 (circled)

Immediately notify the Watch Commander at extension 5523 when the inside air temperature reaches 90 degrees and again at 95 degrees.

(e.g. 1st tier, 2nd tier, etc.)

Institution: MCSF Housing Unit: C12 Temp. Reading Location:

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

(Note: Air-conditioned housing units will also be monitored when the air-conditioning is malfunctioning.) From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed.

immediately notify the Watch Commander at extension 553 when the inside air temperature reaches 90 degrees and again at 95 degrees.

(e.g., 1st tier, 2nd tier, etc.)

Institution: MCSF Housing Unit: C15 Temp. Reading Location:

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Note: Air-conditioned housing units will also be monitored when the air-conditioning is malfunctioning. From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be held.

Immediately notify the Watch Commander at extension 5523 when the inside air temperature reaches 90 degrees and again at 95 degrees.

(e.g. 1st tier, 2nd tier, etc.)

Institution: MCSF Housing Unit: C15 Temp. Reading Location:

Using an accurate thermometer on the highest location in the housing unit where an inmate is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Note: Air-conditioned housing units will also be monitored when the air-conditioning is malfunctioning. From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed.

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed.

Notes

Saturday

Thursday

Tuesday

Monday

Immediately notify the Watch Commander at extension 5523 when the inside air temperature reaches 90 degrees and again at 95 degrees.

(e.g., 1st tier, 2nd tier, 3rd tier, etc.)

Institution: **M.C.S.P** Housing Unit: **7** Temp. Reading Location: **2nd**

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Note: Air-conditioned housing units will also be monitored when an inmate on the heat risk list may be housed. Ambulant air temperature in all non-air conditioned housing units where an inmate to monitor and log the INSIDE ambient air temperature in the wardens shall designate staff to be responsible to monitor and log the INSIDE

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE

M.C.S.P. Institution: _____ Housing Unit: _____ 9

(e.g., 1st tier, 2nd tier, 3rd tier, etc.)

When the inside air temperature reaches 90 degrees and again at 95 degrees, the system turns on the water coil and air coil.

Using an accurate thermometer on the highest location in the house (near the chimney) will give an accurate reading.

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air conditioned housing units where an inmate on the heat risk list may be housed. (Note: Air-conditioned housing units will also be monitored when the air conditioner is malfunctioning.)

The seal of the Commonwealth of Massachusetts, featuring a central shield depicting a Native American figure holding a bow and arrow, surrounded by a circular border with the text "SIGILLUM REIPUBLICÆ MASSACHUSETTENSIS" and the date "1780".

Notes

Immediately notify the Watch Commander at extension 5523 when the inside air temperature reaches 90 degrees and again at 95 degrees.
(e.g., 1st tier, 2nd tier, 3rd tier, etc.)

Institution: **M.C.S.P** Housing Unit: **10** Temp. Reading Location: **2 TIER**

Using an accurate thermometer in all non-air conditioned housing units where an inmate is malfunctioning.

Note: Air-conditioned housed units will also be monitored when the heat risk list may be housed.

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air conditioned housing units where an inmate is malfunc-

MAY 2024

DEPARTMENT OF CORRECTIONS & REHABILITATION

INSIDE TEMPERATURE RECORD

CDCR 2031 (04/18)

STATE OF CALIFORNIA

Immediately notify the Watch Commander at extension 90 degrees and again at 95 degrees. When the inside air temperature reaches (e.g., 1st tier, 2nd tier, 3rd tier, etc.)

Immediately notify the Watch Committee at [#sysop@irc.freenode.net](#) (e.g., 1st tier, 2nd tier, 3rd tier, etc.)

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air conditioned housing units where an inmate on the heat risk list may be housed. (Note: Air-conditioned housed housing units will also be monitored when the air conditioner is malfunctioning).

Institution: M.C.S.P

Housing Unit: 10

Emp. Reading Location:

which are inside all temperature reaches

Immediately notify the Watch Commander at extension 5523 when the inside air temperature reaches 90 degrees and again at 95 degrees.

(e.g. 1st tier, 2nd tier, etc.)

Institution: MSCP Housing Unit: C11 Temp. Reading Location:

Using an accurate thermometer in the highest units will also be monitored when an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Note: Air-conditioned housing units will also be monitored in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. Ambient air temperature in the highest units will also be monitored when an inmate on the heat risk list may be housed. From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed.

immediately notify the Watch Commander at extension 5522 when the inside air temperature reaches 90 degrees and again at 95 degrees.

(e.g., 1st tier, 2nd tier, 3rd tier, etc.)

risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

From May 1st through October 31st, the Warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. (Note: Air-conditioned housing units will also be monitored when the air conditioner is malfunctioning).

Immediately notify the Watch Commander at extension 5522 when the inside air temperature reaches 90 degrees and again at 95 degrees.

Institution: MCIC Housing Unit: 18 Temp. Reading Location: 2ND TIER (e.g., 1st tier, 2nd tier, 3rd tier, etc.)

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

(Note: Air-conditioned housing units will also be monitored when the air conditioner is malfunctioning.) Ambient air temperature in all non-air-conditioned housing units where an inmate is housed on the heat risk list may be monitored by staff to be responsible to monitor and log the INSIDE risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

STATE OF CALIFORNIA INSIDE TEMPERATURE RECORD DEPARTMENT OF CORRECTIONS AND REHABILITATION CDR 2031 (04/18)

90 degrees and again at 95 degrees.

(e.g., Father, Mother, Grandmother, Grandfather, etc.)

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. Note: Air-conditioned housing units will also be monitored when the air conditioner is malfunctioning.

DORM 2 MICSI Threading Unit Welding

Coming up in the thermometer section, we will discuss how to take an accurate temperature reading.

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. (Note: Air-conditioned housing units will also be monitored when the air conditioner is malfunctioning).

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Note: Air-conditioned housed units will also be monitored when the heat risk list may be housed. Ambient air temperature in all non-air-conditioned housed units where an inmate on the heat risk list may be housed.

From May 1st through October 31st, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housed units where an inmate on the heat risk list may be housed. Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.
