

**Monthly Summary Report**

Institution: SATF

**Memorandum**

Date: September 6, 2024  
To: Statewide Heat Plan Coordinator  
Subject: Heat Plan Activity - August 2024  
The following is a summary of the heat related activity for the month of August  
at SATF (Institution)

1. Were outside temperatures 90 degrees or above (Stage I Alerts)?: Yes

Number of days Stage I Alert initiated: 25

2. Were cooling and/or hydration measures instituted in housing units reaching 90 degrees or more (Stage II Alert)? Yes

Number of days Stage II Alert initiated: 1

3. Were medical rounds performed in housing units reaching 95 degrees or more (Stage III Alerts)? Yes

Number of days Stage III Alert initiated: 1

4. Weekly list of heat risk patients archived?: Yes

5. Number of patients with heat related illness. 0 List these patients on the Heat Incident Log and include the patients name, CDCR #, list of heat risk medications, Mental Health Services Delivery System designation, description of the symptoms diagnosis at the time of the heat related illness, a brief summary of the medical treatment rendered, where the incident occurred, and the ultimate disposition of the patient. The Heat Incident log shall be submitted each month with the Monthly Summary Report if heat related illnesses have occurred.

Weekly list of Heat-Risk Patients is generated automatically. A hard copy is distributed to the Facility Lieutenants, Classifications and Parole Representative, Food Manager, Outpatient Housing Unit and Mental Health Department. An e-mail copy is distributed to the Litigation Coordinator, Associate Warden, Facility Captains, Prison Industry Authority, Education Staff and Medical Staff.

Inside and Outside Temperature Logs, Medical Rounds Logs, Heat Incident Logs and Weekly lists of Heat-Risk Patients have been collected and are on file and easily accessible in the office of the institution's Heat Plan Coordinator.

From May 1<sup>st</sup> through October 31<sup>st</sup>, the warden shall designate staff to be responsible to monitor and log the INSIDE ambient air temperature in all non-air-conditioned housing units where an inmate on the heat risk list may be housed. (Note: Air-conditioned housing units will also be monitored when the air conditioner is malfunctioning).

Using an accurate thermometer on the highest location in the housing unit (e.g., top tier) where an inmate on the heat risk list is housed. The inside air temperature is to be taken every three (3) hours, seven (7) days a week.

Institution: SATF Housing Unit: C-2 Temp. Reading Location: 2nd TIER  
 (e.g., 1<sup>st</sup> tier, 2<sup>nd</sup> tier, 3<sup>rd</sup> tier, etc.)

Immediately notify the Watch Commander at extension \_\_\_\_\_ when the inside air temperature reaches 90 degrees and again at 95 degrees.

Hello Barba,

On August 17, 2024, at approximately 1530 hours, Facility E Building 3, A Section both tier cells are receiving Hot Air through the cell ventilation system. The Officer went into several cells on both tiers to verify and they confirmed that it is HOT Air coming out of the Vents. The Officers advised the temperature in the cells is currently 96 degrees. The Watch Commander was notified and implemented Stage III of the Heat Plan. At 1641 hours the Officers recheck the temperature in several cells and the temperature dropped to 92 degrees. The temperature was getting cooler in the area after plant op came in and fixed the pump. I believe that is why it was reported that way, due to the temp was checked during certain hours 1500, 1800 it was fixed prior to 1800 hours. It is documented in the log book I was told.

It should have also been documented on this form under notes due to this being the temp log.

Thank you

J. Vaca

Captain Vaca,

Please see attached. Medical provided me a Stage III heat log indicating Building E3 had an indoor temperature of over 95 degrees; however, the heat log that was submitted from E3 only shows a high of 80. Can you please do some follow up on exactly when E3 went into Stage III? Thank you

Here is the notification that we begin filling out the attachment 'E' in accordance with the OP 207. I personally printed it out and handed it to the staff in E3, so I know it was completed.

I have not seen the finished document, however. Let me attempt to find it.

Good afternoon,

At approximately 1530 hours, E3 notified Facility Sergeant G. Sanchez that E3 'A' Section was blowing hot air into the cells. Temperature was taken of the inside of these cells and the temperature was 96 degrees. Stage III was activated, and Watch Commander A. Rivas contacted an engineer, and they are coming to the institution to attempt to fix this issue.

Facility 'E' Staff notified medical on E yard that we have a Stage III in E3. SRN II Hutchinson called Lt. A. Ojeda and notified me that she will be sending a RN to E3 to conduct rounds and medical evaluations on the affected inmates.

Additionally, AOD Captain Vaca gave E yard permission to temporarily relocate the Port-A-Cool into E3 'A' section. All inmates have access to ice water as well.

Furthermore, Attachment 'E' has been sent to E3 to be filled out hourly by floor staff in the housing unit, in accordance with Operational Procedure 207.

You will be notified of any further details or developments regarding this situation.
